# Lalit Mohan

lalitg6376@gmail.com | +91 6376744236 | Alwar

## CAREER OBJECTIVE

Motivated and detail-oriented Machine Learning enthusiast with hands-on experience in building real-world ML projects. Strong foundation in Python, data processing, and model development. Passionate about solving practical problems using AI

## EDUCATION

**B.Tech, Artificial Intelligence And Machine Learning** 2025 - 2028
Mitrc

CGPA: 7.88/10

**Diploma, Mechanical Engineering** 2021 - 2024
Government Polytechnic College, Alwar

CGPA: 7.54/10

## PORTFOLIO

GitHub link ↗

Portfolio link ↗

## PROJECTS

### Credit card fraud detection ↗
Mar 2026 - Apr 2026

Description: Built a credit card fraud detection system using deep learning (neural network) with 99% accuracy. Preprocessed transaction data and handled numerical features. Developed a user interface using Streamlit for real-time prediction. Technologies: Python, TensorFlow/Keras, Streamlit

### AI power job recommendation system ↗
Feb 2026 - Mar 2026

Built a full-stack job recommendation system using Flask and MySQL. Designed backend APIs to process user data and job listings. Implemented filtering and matching logic for personalized job suggestions. Technologies: Python, Scikit-learn, Pandas, HTML, CSS, Flask, MySQL

### SmartML pipeline ↗
Feb 2026 - Apr 2026

Developed an AutoML web application that performs data cleaning, visualization, and model building. Implemented Random Forest Classifier and Regressor for prediction tasks. Displayed model performance using Accuracy, $R^2$ score, and Confusion Matrix. Technologies: Python, Scikit-learn, Pandas, Matplotlib, HTML, CSS, Flask

### House price prediction ↗
Jan 2026 - Feb 2026

Developed a house price prediction model using Scikit-learn ($R^2$: 0.65, MAE: 34.1, RMSE: 83.8). Built backend using Flask APIs and integrated with frontend.

## SKILLS

- Python
- scikit-learn
- HTML
- NumPy
- Jupyter Notebook
- SQL
- TensorFlow
- CSS
- Pandas
- Seaborn
- MySQL
- Keras
- Flask
- Matplotlib
